My Projects

Message Board Passport API with Authentication: Full-stack Project

https://github.com/Lindaroy202/Full-Stack_Project

- Delivered a RESTfull Web-based API using Node and
  Implemented JSON Web Token authentication.
  Created Documentation on GitHub with instructions for
  Express that allows users to register, log in, and view
  their profile.
- Implemented JSON WEB Token authentication for
  security and added restricted middleware to prevent
  access to unauthorized endpoints.

- Created Documentation on Github with instructions for developers

African Restaurant Landing Page

https://github.com/Lindaroy202/camair-resto

https://lindaroy202.github.io/camair-resto/

This project was built with HTML, CSS & JavaScript, and the

whole idea was to portray a landing page for an African

restaurant
